## **OUR HEALTH & SAFETY MEASURES**

We are delighted to inform you that Tanzania has opened its gates again to international tourism, due to very low Covid cases on the mainland and the islands of Zanzibar and therefore very safe traveling.

We at The Zanzibari are of course following all safety protocols from Tanzanian and Zanzibar Health departments, which are based on the World Health Organization recommendations, to ensure a maximum safety

**When arriving at Zanzibar International Airport you will be** required to present a negative RT-PCR COVID-19 test certificate taken 24 hours before the departure time.

**We have implemented the following additional control measures**

- Increased cleaning, and disinfection is in place throughout hotel's public areas, back of the house areas and in guest rooms.
- Regular disinfection is conducted across all hotel areas.
- Addition of hand sanitizers starting from the reception to the room.
- Updated instructions and procedures for all team members: general hygiene standards and instructions on hand disinfection.
- Rooms are cleaned one by one, completely, without coming and going.
- Food to be offered in guest rooms when requested.

**What we ask you to do, for everyone's safety**

- Wash your hands frequently or use our hand sanitizer dispensers.
- Maintain physical distancing. Staff is observing social distancing of not less than one meter from one staff member to another and from the guests.
- Avoid handshakes and hugs and avoid touching your face: eyes, nose and mouth.

**When Departing from Zanzibar.** If your home country or airline requires a PCR testing then we can organize that. Either by organizing a taxi to do the testing in Stone town, for 80 US\$ per car for the return transfer by taxi, plus 80 US\$ per person for the test (to pay online), or we can have the mobile PCR testing organized directly at our hotel, for 120 US\$ per person. If you need only a quick test, then this is done comfortably at the airport on departure, for 25 US\$.
